## Monthly Factsheet

As of 31 Mar 2025

### Important Information

Investment involves risk. Past performance is not indicative of future performance. Investors should not make any investment decision solely based on the information provided on this material. Investors should refer to the Prospectus and the Key Facts Statement of the Sub-Fund for further details, including the product features and risk factors before making any investment decisions. Bosera RMB Money Market ETF offers both listed class of shares ("Listed Class") and unlisted class of shares ("Unlisted Class"). Switching between Listed Class and Unlisted Class is not available.

1. Bosera RMB Money Market ETF (the "Sub-Fund") is a sub-fund of the Bosera Global Public Funds Series Open-ended Fund Company ("Company"), which is a public umbrella open-ended fund company established under Hong Kong law with variable capital with limited liability and segregated liability between sub-funds. The Company has been registered with the Securities & Futures Commission ("SFC") as an OFC and the Company and the Fund have been authorized by the SFC pursuant to section 104 of the Securities and Futures Ordinance. The SFC's registration or authorization is not a recommendation or endorsement of the Company or the Fund nor does it guarantee the commercial merits of the Company or the Fund or its performance. It does not mean the Company or the Fund is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.
  2. The Manager employs an actively managed investment strategy for the Sub-Fund. The Sub-Fund does not seek to track any index or benchmark, and there is no replication or representative sampling conducted by the Manager. It may fail to meet its objective as a result of the Manager's selection of investments, and/or the implementation of processes which may cause the Sub-Fund to underperform as compared to prevailing money market rates or other money market funds with a similar objective.
  3. The Sub-Fund's ability to make the relevant investments or to fully implement or pursue its investment objective and strategy is subject to the applicable laws, rules and regulations (including restrictions on investments and repatriation of principals and profits) in Mainland China, which are subject to change, which may have potential retrospective effect. The Sub-Fund may suffer substantial losses if the approval of the RQFII is being revoked/terminated or otherwise invalidated as the Sub-Fund may be prohibited from trading the relevant securities and repatriation of the Sub-Fund's monies, or if any of the key operators or parties (including the RQFII custodian/brokers) is bankrupt /in default and/or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities).
  4. Investors of Listed and Unlisted Classes of Shares are subject to different pricing and dealing arrangements. The NAV per Share of each of the Listed and Unlisted Classes of Shares may be different due to different fees and cost applicable to each class. The trading hours of The Stock Exchange of Hong Kong Limited applicable to the Listed Class of Shares in the secondary market and the dealing deadlines in respect of the Unlisted Classes of Shares are also different. For the avoidance of doubt, the dealing deadline applicable to the Listed Class of Shares in the primary market and the dealing deadlines in respect of the Unlisted Classes of Shares are the same.
  5. Shares of the Listed Class of Shares are traded on the stock exchange in the secondary market on an intraday basis at the prevailing market price (which may diverge from the corresponding NAV), while Shares of the Unlisted Classes of Shares are sold through intermediaries based on the dealing day-end NAV and are dealt at a single valuation point with no access to intraday liquidity in an open market. Depending on market conditions, investors of the Unlisted Classes of Shares may be at an advantage or disadvantage compared to investors of the Listed Class of Shares.
  6. In a stressed market scenario, investors of the Unlisted Classes of Shares could redeem their Shares at NAV while investors of the Listed Class of Shares in the secondary market could only redeem at the prevailing market price (which may diverge from the corresponding NAV) and may have to exit the Sub-Fund at a significant discount. On the other hand, investors of the Listed Class of Shares could sell their Shares on the secondary market during the day thereby crystallising their positions while investors of the Unlisted Classes of Shares could not do so in a timely manner until the end of the day.

### Investment Objective

The Sub-Fund's objective is to invest in short term deposits and high quality money market investments. The Sub-Fund seeks to achieve a return in RMB in line with prevailing money market rate. There can be no assurance that the Sub-Fund will achieve its investment objective.
